Year 2018: An Overview

Career and income from it can make fairly good progress during this year. But there will be too many problems at work, with your seniors and also possibly with colleagues. Your professional image may get affected.

To avoid threat to your position, you will need to avoid conflict of attitude and controversies. Income from all sources will be quite good but high expenses will cause your accumulation to remain inadequate. Loss through wrong investments decisions, social life, high living style, needless expenses, travels, and medical issues will be significant and you must avoid these as much as possible.

Social life will be active but this should be cut down if not avoided altogether. Marriage, if not married, may bring a thin chance but this may not be reliable or definitive. Marital life, if applicable, will remain unsatisfactory and not happy. Health of spouse will suffer. Happiness of/from progeny will be low or absent. Personal health will remain affected variously, by common ailments.

Year 2018: Detailed Readings

Part One: The effects in the major areas of life are likely to be on the following lines during 2017.

Career:

- Business or self employment is not a right career option for you. Yours should be a job career only. The main period lord Mercury and the sub period lords Venus and Sun covering this year are all quite strong and auspicious.
- Also the transit chart of the year is quite favorable for good progress in career and for income from it. Professionally gainful and financially beneficial change of job is possible, in case you are ready for it.

- In case you cannot change or do not want to change your job, you may get a change to a better role or area of work or may get more responsibility, with better compensation in either case.
- On the flip side your health may not be stable or free from troubles and this can affect your performance. Also you will be liable to get into many serious controversial situations with superiors and colleagues. At the same time your current high energy level can make these situations worse.
- Your communication too will not remain very precise, convincing or timely. You may make the mistakes of going against the authorities in hasty ways and of entering into avoidable arguments with them. These controversies can lead to their unhappiness and displeasure about you.
- Though superiors will remain more or less satisfied with your work, your ego will remain strongly present and will be expressed at wrong moments and this will be quite negative for you. Superiors will keep you under many restrictions and you will be denied the freedom to enjoy your power to take independent decisions.
- All the above will apply to any job or role, current or new. Right, flexible and prudent attitude will be the deciding factor and thus you must remain as much grounded as possible must try to effectively avoid such differences. Unwanted haste in speech or action can spoil your good luck for growth of your occupation.
- Strictly avoid offering unsolicited ideas, or making or demanding changes in work style. But you can slowly bring in small, practical and prudent changes tactfully since this approach can favor you immensely.

- Frequent lapses in speech or inconsistent or combative statements from you can undermine your position, image and status. This will annoy the support or cooperation from superiors and peers and you will be seen as looking for personal fame, progress or benefit in a selfish way.
- Thus you must remain tactful always and every time. Health might be often quite lower than normal and this can affect your work.

Finance:

- Income from occupation will remain quite decent.
- Good increase in income from job is expected.
- Expenses will remain quite high and often without any real need or reason.
- Loss through high living, wrong investment decisions including speculative ones, social life, travel and medical issues will occur.
- Accumulation of funds will be quite lesser than what is possible for you.
- Stringency in finance may develop if you do not take serious control over your way of handling money.
- The status will be even more challenging from 2018 onwards.

Love Life:

- Social life will remain quite active.
- Some of your earlier associations will try to revive and renew or repair old or broken associations.
- But social life will not be good for you at this stage.
- You are quite likely to lose money through social life and also lose your peace of mind.
- It can also cause harm to you through hidden enmity.
- No love or romance is expected.

Marital Life:

- If you are not married now and looking for getting married, this year will not offer you any reliable option though some tentative chance may develop.
- It is better to consider this ONLY AFTER MUCH FORETHOUGHT.
- It will be best to avoid this option now.
- If you are married at this point of time, marital life will not be per se much happy or satisfactory but will have some chance to get better after Jul 2018.
- But basically differences in attitude, preferences, principles and living style will continue to create major issues. Sex life will not be worthwhile.
- Health issues of both will further affect marital bliss. Health of your spouse may be more affected at this stage but in an up and down manner.

Children:

- This is a weak area of your birth chart.
- You may or may not have children.
- In case you have children, they may not enjoy much good health or good luck.
- Their equation with you may not be cordial or deep or dependable.
- Happiness from your or due to progeny will be low or absent.
